

Congress of the United States
Washington, D.C.

August 21, 2023

The Honorable Thomas A. Monheim
Inspector General of the Intelligence Community
Office of the Intelligence Community Inspector General
Washington, D.C. 20511

Dear Inspector General Monheim,

On July 26, 2023, the House Oversight and Accountability Subcommittee on National Security, the Border, and Foreign Affairs held a hearing on Unidentified Anomalous Phenomena (UAPs). During the hearing, Air Force veteran and former intelligence officer, Mr. David Grusch, declined to answer several questions in a public setting, stating that the information requested was classified and would need to be conducted in a SCIF at the appropriate classification level.

Specifically, Mr. Grusch could not provide the names or titles of individuals with firsthand knowledge of, or direct access to, UAP crash retrieval programs. Similarly, Mr. Grusch could not provide the names or titles of individuals with firsthand knowledge of, or direct access to, UAP reverse engineering programs. However, Mr. Grusch testified that he provided this information to the Intelligence Community (IC) Inspector General's office.

Considering Mr. Grusch's testimony was under oath, we request answers to the following questions:

1. Which intelligence community members, positions, facilities, military bases, or other actors are involved with UAP crash retrieval programs, directly or indirectly?
2. Which intelligence community members, positions, facilities, military bases, or other actors are involved with UAP reverse engineering programs, directly or indirectly?

Please respond to these questions by September 15, 2023. If the information requested in the questions above contains classified material, we request access to this information in a secure setting no later than September 26, 2023. Thank you for your attention to this matter.

Sincerely,

Tim Burchett
Member of Congress
